HISTORY

This Club was formed as a result of a Cutting Horse and Western Performance Day held at "Tamborine House" on 25th July 1971. "Tamborine House", situated at the junction of Canungra and Beaudesert Roads, was then owned by Sally and the late Bob Wearing.

The "Losers" as they called themselves, recognised the need for the formation of a club to enable people interested in this field of eventing to meet regularly and practice before entering open competition. It would give those without facilities an opportunity to practice and others the chance to learn more about these events that were introduced into this country with the importation of the Quarter Horse from the United States of America.

RULE A: TACK

Standard mounted Western saddle with horn. Saddle without a horn is acceptable in Snaffle bit and Beginner Youth classes. Horses must be ridden with a bridle having a bit in the mouth or with a hackamore. A bridle shall have no nose band or bosal and hackamores shall be of rope or braided rawhide with no metal parts. Braided rawhide balls across the horse's nose are not permissible. Choke ropes, tie downs, wire around the horse's neck, nose, or brow band, tight nose band, quirt, bat or mechanical device giving the rider undue control over a horse will not be permitted in the arena. Wire of any kind and on any part of the curb device is not permissible. Twisted wire bits are not permitted to be used on grounds.

RULE B: ATTIRE

Any person in the arena after the start of an event must wear western attire, including hats. Men must wear long-sleeved shirts with collars and buttons or snaps completely down the shirt front. Women must wear long sleeved shirts with a collar. T-shirts and slip over knits are not permissible.

RULE C: EVENT

In cutting horse competitions, horse and rider have two and a half minutes to demonstrate their ability to cut cattle and prevent them from returning to the herd.

A herd of cattle is held at one end of the arena by two riders who do not allow any cattle to pass them until the contestant has the animal, he has chosen to work cut out from the herd. After this animal has been driven past the riders holding the herd, it will have to be turned back giving the contestant a chance to show his horse's ability to keep it from returning to the herd. The turning back is usually done by two riders selected by the contestants.

Contestants usually separate two or three individual cows before time expires. The clock starts when the horse and rider cross an imaginary line (the timeline) approximately fifteen metres in front of the herd. The horse and rider walk quietly into the herd and the rider begins the process of selecting which cow to cut from the rest of the group. The rider carefully selects a cow and drives it forward from the herd. When the separation has been made, the rider must drop or loosen the reins and allow the horse to work independent of any guidance from the rider.

The horse takes control of the contest and with lightning fast starts and turns prevents the cow from returning to the herd. When the cow turns away or discontinues its effort to return to the herd the rider may lift the reins signalling the horse to quit the cow. The cow is allowed to return to the herd and the process of selecting a new cow begins.

The event is scored in a range of 60 to 80 points. Every horse enters the herd with seventy points and the judge adds or takes away from this score to determine the final score for the run.

Below are Credits and Penalties, extracted from the NCHA Rule Book, for use as a guide:

Credits

- a. Each horse is required to quietly enter the herd sufficiently deep enough with very little disturbance, to show its ability to make a cut.
- b. When an animal is cut from the herd, it is more desirable that it be taken toward the centre of the arena, and credit will be given for same. Additional credit will be given the horse which drives the stock sufficient distance from the herd to assure that the herd will not be disturbed by the work, thereby showing its ability to drive a cow.

- c. Riding with a loose rein through a performance is a requirement and will be recognised.
- d. Credit will be given for setting up a cow and holding it in a working position as near the centre of the arena as possible.

Penalties

- a. If the cutting horse or his/her rider creates disturbance at any time throughout the working period (2.5 minutes) they will be penalized.
- b. A horse will be penalized each time the back fence actually stops or turns the animal being worked.
- c. If a horse turns the wrong way with tail toward animal being worked, an automatic score of 60 points will be given.
- d. While working, a horse will be penalized each time the reins are used to control or direct (to rein) the horse, regardless of whether the reins are held high or low.
- e. If a horse lets an animal that he is working get back in the herd, he will be penalized.
- f. If a rider changes cattle after visibly committing to a specific cow, a penalty will be assessed.
- g. When a horse goes past an animal to the degree that he loses his working advantage, he will be penalised each time he does so.
- h. Unnecessary roughness, such as a horse actually pawing, biting or kicking cattle, will be penalised.
- i. A contestant may quit an animal when it is obviously stopped, obviously turned away or is obviously behind the turn back horses and the turn back horses are behind the timeline. A penalty must be charged if the animal is quit under any other circumstances.
- j. If a horse quits a cow, a penalty will be assessed.
- k. If a horse clears the herd with 2 or more cattle and fails to separate a single animal before quitting, a penalty will be charged. There is no penalty if time expires.
- l. If a contestant is thrown from a horse or horse falls to ground, an automatic score of 60 points will be given.
- m. Any rider who allows his/her horse to quite working or leave the working area before his/her allotted time is up will be disqualified to that go -round with no score.

Note: DO NOT dismount your horse after completing your run until you are over the timeline.

When using two rein equipment, bosals may be of any size, constructed of braided rawhide or leather and have a nonmetal flexible core. No iron or foreign substance may be used.
- **Snaffle Bit** Conventional O-ring, Egg-butt, or D- ring. The diameter of Snaffle bit rings must be a minimum of 50mm and a maximum of 100mm. The bars must be a minimum of 5/16" (8 mm) in diameter, measured one inch (25 mm) in from the cheek with a gradual decrease to the center of the snaffle. The inside circumference of the ring must be free of rein, curb or headstall attachments which would provide leverage. Entries ridden in a Snaffle bit must be shown with both hands on both reins. Reins must be bridged with the tails of the reins on the opposite side of the neck. The rider's hands will be carried near the pommel and no further than approximately 50 cm apart. Rider's hands must be steady with limited movement. Failure to comply with this rule will result in disqualification.
- **Curb Bits** A bit that has a solid or broken mouthpiece, has shanks and acts with leverage. All Curb bits must be free of mechanical devices and will be considered a legal standard western bit. Curb bits must have a shank with a maximum length of 216mm and may be fixed or loose. Ports must be no higher than 90mm maximum, with rollers and covers acceptable. Broken mouthpieces, half- breeds and spades are acceptable. When using a curb bit, a curb strap or curb chain is required, but must meet the approval of the judge, be at least 12.5mm in width and lie flat against the jaw of the horse. A broken strap or chain is not necessarily cause for disqualification.
- **Mouthpieces** Bars must be round, oval or egg shaped, smooth and unwrapped metal of 8mm to 20mm in diameter, measured 25mm from the cheek. They may be inlaid but must be smooth or latex wrapped. Nothing can protrude below the mouthpiece (bar), such as extensions or prongs on solid mouthpieces than by no more than 1.6mm. The mouthpiece may be two (2) or three (3) pieces. A three-piece will have a connecting ring of 32mm or less in diameter; or a connecting flat bar of 10mm to 20mm measured top to bottom with a maximum length of 50mm, which lies flat in the horse's mouth; or a connecting roller 10mm to 20mm diameter.
- Except for Hackamore/Snaffle bit classes or junior horses shown with a Hackamore, only one hand must be used on the reins and the hand must not be changed and the index finger only must be between the split reins. Exception: To work a trail obstacle a rider may change hands on the reins, but the index figure only must be between the reins.
- **Romal** is an extension of braided material attached to closed reins. This extension will be carried in the free hand with 40cm spacing between the reining hand and the free hand holding the Romal. The rider's hand will be around the reins with the wrists kept straight and relaxed, the thumb on top and the fingers closed lightly around the reins. Fingers between the reins are not allowed. Use of the free hand while holding the Romal to alter the tension or length of the reins from the bridle to the rein hand is considered to be the use of two hands (except horses shown in a Snaffle bit/Hackamore or where division specific gear rules apply), except during the hesitation or settling of the horse. The Romal will not be used forward of the cinch or to signal or cue the horse in any way. Any infraction of this rule will be penalised severely by the Judge.
- Slip or gag bits and donut and flat polo mouthpieces are not acceptable.
- Horses must be ridden with a bridle having a bit in the mouth or with a hackamore.
